

SOFT CONCERT

Sing and play with your MIDI files Design your live performance on your PC

Soft Concert was designed for amateur and professional musicians who wish to be accompanied by a complete orchestra reproduced by a computer and a sound module, while playing their instrument.

Soft Concert software supports General MIDI, including the MIDI Karaoke file format and the latest MIDI file standard: Standard MIDI Files with Lyrics. In other words, hundreds of professional MIDI files complete with lyrics, which can be played using Soft Concert, are already available.

Soft Concert lets you add your own lyrics and chords to the music.

- ▶ Control the volume and the panning of each instrument track and insert special effects such as reverb and chorus. Be the conductor of the band and shape the music to your liking!
- ▶ Add your lyrics syllable by syllable to the melody track and indicate with the special chord editor the chords you want to play with your own instrument. The chords will light up to the right beat on the screen of your PC and will be altered accordingly if the key is changed!
- ▶ Program the sequence of songs you want to play on stage together with the breaks you need to make announcements or to change instruments. Soft Concert doesn't require any interference during the event!

Your essential equipment
on stage!

THE UNIVERSAL
NETWORK OF
ENTERTAINMENT™

HI FELLOW MUSICIANS AND MUSIC LOVERS!

TUNE 1000 Corp. (The Universal Network of Entertainment) is proud to present its **Standard MIDI Files with Lyrics** and its unique MIDI Harmony technology.

These professional-sounding sequences include the original lyrics of the song and (when marked with an asterisk) a harmony track. A vocal harmony processor that is compatible with MIDI Harmony will be able to reproduce the original backup vocals of the song while reading this prerecorded harmony track.

These sequences are fully compatible with General MIDI. In addition, they work with any software or sequencer that plays Standard MIDI Files.

Each song is programmed by professionals to correspond with the original recording, and has a human touch which makes it stand out from other MIDI files.

Standard MIDI Files with Lyrics are sold by "albums". Consult this catalog to pick your favorites! Choose from the highest-quality sequences on the market and be sure to find that typical groove that sets them apart.

TUNE 1000 SMF SPECIAL FEATURES

HARMONY TRACKS

Most of our MIDI files include a harmony track. Using a MIDI harmony processor*, surprise yourself with real-time background vocals as you sing along with the music.

When you are setting up your equipment, make sure the harmony processor is configured for 4 voices and uses the vocoder program. Set it to receive MIDI information, on channel 5, and have a microphone plugged into it.

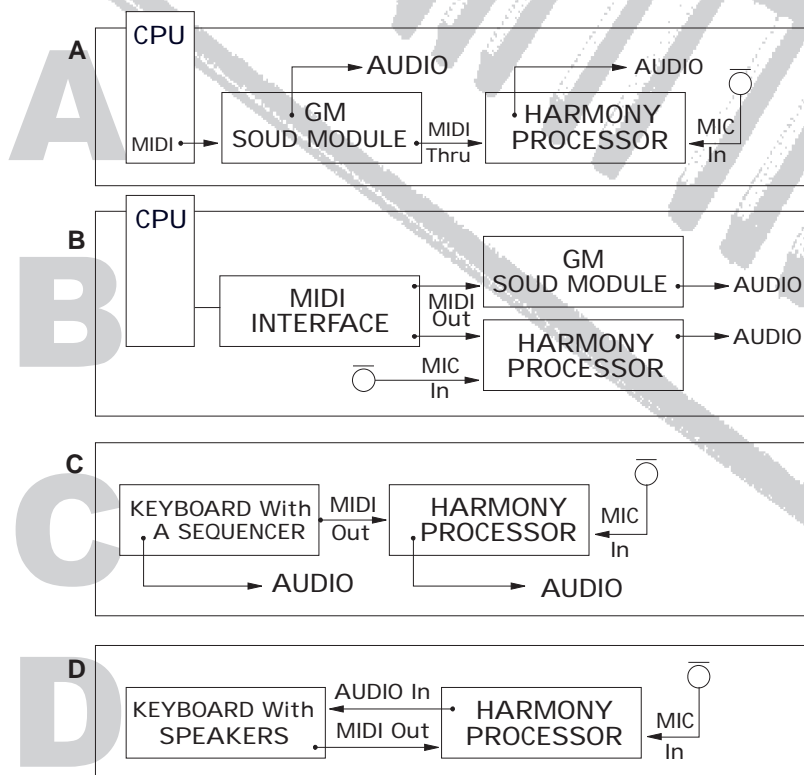

*The products currently available are: TUNE 1000 MIDI Harmony BOX, DIGITECH Vocalist, and KORG ih.

LYRICS

Sing your favorite song, following the lyrics on the screen! In order to see the lyrics included in TUNE 1000 Standard MIDI Files, you can use a computer with our Soft Concert program, Cakewalk Pro v3.0 and upgraded versions or any other compatible program (karaoke type 0).

TUNE 1000 has set a standard in lyrics display and harmony supported by several major manufacturers.

Here are some setup possibilities:
